

“We are very optimistic about bc India and I think it is an excellent platform to enhance customer relationship and it’s a good opportunity to meet existing and prospective clients across the globe”
- Aditya Mehta, Director, Jaypee India Ltd

ABOUT JAYPEE INDIA

Jaypee India Ltd is the largest manufacturer of Jaymac range of Bar Bending and Bar Cutting machines, it is a one point solution provider for construction engineering industry. With over 28 years of expertise, Jaypee India understands the challenges in the manufacturing process and the opportunities to improve productivity. Today, Jaypee’s wide range of products includes rebar bending machine, bar cutting machine, batch mix plant, concrete mixer, mini dumper, walk behind vibratory roller, tower crane, passenger hoist, etc. The Company is also a leading OEM service provider with ISO and TUV certifications. With the consistent efforts of advanced R&D unit, Jaypee has introduced several new models, innovative designs, and improvisations in its range of products.

Jaypee India

PRODUCTS

RADIUS BENDING MACHINE

Jaymac heavy-duty Radius Bar Bending Machine will radius up to 35mm rebar. This machine can form radius without pre-bending bars, it comes with a standard 2-speed drive motor. Adhering to most safety requirements it is an efficient and quicker bender used for making circular rings.

BAR SHEARING MACHINE

Jaymac Bar Shearing Machine known also as Bar Cutting Machine is robustly built to with stand the stress while shearing of rebar and various forms steel bars. Durable fast and easy to use, this machine gives a one-shot cutting operation with perfect cutting accuracy thus minimizing the use of labor and long drawn cutting process for single cuts. This workhorse knows no stop as it can be effectively put to use for a constant round-the-clock production.

BAR BENDING MACHINE

Jaymac Bar Bending Machine is a semi automatic, durable fast and cost effective machine, used for bending reinforcement bars and various forms of round bars. This machine effectively increases the production capacity of your steel yard, minimizing the use of manual labor.

The automatic angle selection permits a precise bend at a preset angle making it one step bending process for various forms of bends and stirrups. Bar Bending Machine is easy to use and can be operated by a layman with minimal experience.

AUTOMATIC STIRRUP BENDERS

Reduce labor, reduce scrap, and increase production with KRB Auto Stirrup Benders. Our line has been redesigned to offer the market a solid, cost effective alternative. Rugged American manufacturing and improved design has given KRB a reliable line of performers in the field.

NEW LAUNCH AT BC INDIA

Apart from its existing products bouquet, Jaypee India will be showcasing its new product range and its international partner KRB Machinery will display the advanced version of Auto Stirrup Bender COIL FORM 612.
